Kenny G's Message:

Remember, this Saturday, July 9th is our 8th annual summer roundup at Baker's of Milford. We'll need all hands on deck Friday for setup at 5pm and everyone's help Saturday. The show officially starts registration at 8am, but you know car guys, some will be there earlier, so we'll need to be there early

too. We'll button up the start time Friday night while we do setup. Remember, the show also includes Buick and Oldsmobile's, so invite your friends. The silent auction items are bigger than our usual turnout, so let your neighbors know they can come bid on items too. Our hope is after being locked up for Covid for 2 years, this will be our best show ever. As of now, it's supposed to be 78 degrees and sunny, so the usual excuses won't work.

Hope to see all the members there!

Ramblings of an Irishman:

Remember, July 9th is our car show and we need all the help we can get. I give thanks to all club members that collected donations for the show, but you have to admit, Ken, Ray G and Mike did an incredible job collecting money and items. So far, there's been \$12,425.00 collected in sponsor money and items. There's even more details about this in Ray G's section on the next page.

I send out a big CONGRATULATIONS to Ken for placing 3rd overall in the St. Ignace show last weekend with his Chevy truck.

I also apologize that this newsletter is late and will be briefer than usual. I've just been too busy to sit down long enough to hammer one out. I also do the newsletters on rainy days when it's hard to get anything else done, but as you know, it's hardly rained in months.

Here's a great picture of Ken and his lovely wife, Linda at St. Ignace.

Treasurer's notes:

Please see the extensive list of silent auction items at the end of this newsletter. Invite your friends and family to not only come to the car show this Saturday, but to bid on the auction items, since there's so many. Make sure they know, **cash or checks only.**

Auction starts at 10am and ends at 1pm and pickup of items is after 1:50pm.

As of now, there are 41 people pre-registered for the show. (13 are first timers)

There are currently 43 door prizes.

There are currently 103 silent auction items. 56 are physical items and 47 gift cards.

Sponsors donated \$12,425 so far.

See website for forms. <https://motorcitypoci.com/2022-forms/>

Hope to see everyone there!

Activities Coordinator:

Mike Cushing

The Woodward Dream Cruise / lot rental is looking good at this time—my contact expects to hear details from the city of Pontiac very soon, and once confirmed, I'll pass them along.

Stay tuned....we'll have very little time to pre-register folks.

Remember, this year we've opened it up for friends and family and even invited the Arsenal Harley group, one of our car show sponsors.

Here are Ray G., Sheila and Mike shown at the first bike night at Arsenal on June 22. Good band, good food and free beer and beautiful bikes.

What more could you want.

Editor present, but not shown.

Club Upcoming Events:

- July 6 Bike night at Arsenal Harley Davidson in Waterford
 (these are every other Wednesday during summer)
- July 9 Motor City POCI Summer Roundup—2nd Tri Pontiac event
- August 7 5 Star Hardware car show (Lori and Paul's show)
- August 19-20 Woodward Dream Cruise

Club Historical story: (Story and picture supplied by May-June 2016 Spokes)

John Berzsenyi editor

Past member, Michael and Mary Kay Marisco won first place in their class with their 2+2 at the 2016 Piston Power show in Cleveland Ohio.

They even won Jay Leno's 2016
"Big Dog" award.

Grabowsky Motors fun facts:

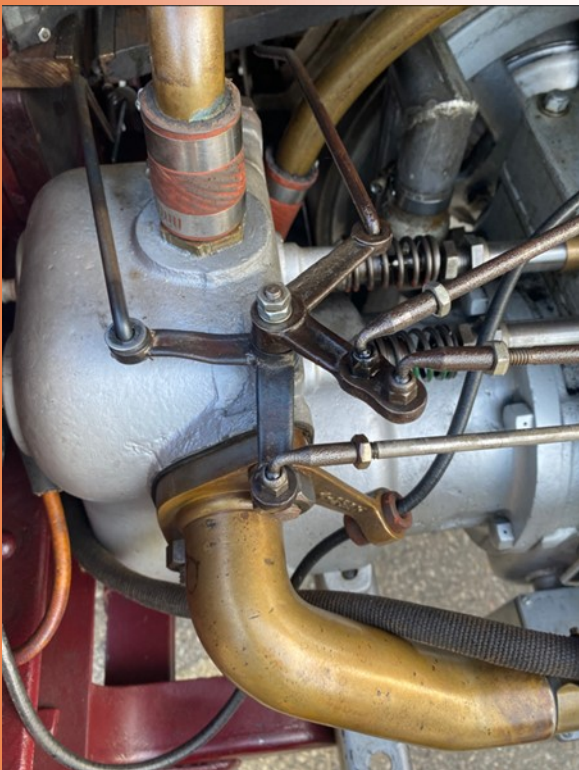

The Rapid Motor Vehicle company was founded in 1902 in Pontiac, MI, by brothers Max and Morris Grabowsky, whose earlier venture, Grabowsky Motor company had been founded in Detroit in 1900. They went on to build one ton trucks and were the beginning of GMC Truck division of GM. They were acquired by GM in 1909.

I mention this because the Pontiac Transportation Museum has acquired the only known survivor of a 1911 model Grabowsky truck. While the editor was there getting a free dinner at the PTM volunteer thank you dinner, they drove it out in the sunshine to get a good look. The following are pictures of this fine example. As I mentioned, this runs and drives just like it did over a hundred years ago.

Wild rear end setup. This had a driveshaft connected to a rear differential driving 2 gears and driving 2 chains hooked to 2 more sprockets at the tires. Transverse springs, just like the 60's and 70's corvettes. Solid rubber wheels too.

The editor was very surprised at the sophistication of the engine and controls.

The setup to the left controlled the distributor retard / advance, throttle and a bunch of other stuff I can't remember.

Worked perfect too!

GM / Industry news:

- GM now has 70,000 Hummer EV's and 140,000 Silverado EV's on reservation.
- GM Cruise Autonomous vehicles will operate in all of San Francisco by the end of 2022.
- Democratic Senator Manchin questions the need to extend the electric vehicle tax incentives.
- The Blazer SS EV will launch in 2024, before the Equinox EV.
- GM picks up several manufacturing leadership awards this year.
- GM to make a V series Escalade in 2023. for \$150,000. It'll have a supercharged 6.2 liter LT4 engine producing 682 horsepower and 653 foot pounds of torque. It'll mate to a 10 speed transmission and feature full time all wheel drive and sprint to 60 mph in 4.4 seconds.
- GM files to patent autonomous EV charging system without the need for human input.

New Members:

Patrick Smerecki of Grosse Point Farms. Joined 6-9-2022.

Don and Penny Masch of White Lake joined 5-11-2022.

Scott Vanthemelen of Hamilton joined 4-29-2022.

John (Jay) Wetzel of Bloomfield Hills rejoined 4-29-2022.

Welcome new members to the best Pontiac club in the country. Be sure to join us at this weeks car show at Baker's of Milford and other club events to meet everyone and to get the full experience.

Member Happenings:

On May 21, Mike, our activities coordinator, got permission for the club and our friends to visit the GM heritage center. We were also joined by the West Michigan POCI club. We spent about 2 hours touring the center and then a bunch of us went out to have a nice lunch afterwards. Keep in mind, the center is not open to the public and you need to coordinate a visit with the correct people beforehand. The following pictures are only a small sample of what's there, and is in no way everything GM owns. In fact, GM has so many cars that only a small percentage of them are shown here and they are rotated out regularly.

The front lobby where we congregated while everyone was checked in before entering

Our host Emily explaining the rules

Look!

An Italian Firebird.

Something GM worked with Ferrari on. It was called the Pegasus Project and it started with a 1970 Firebird and had a V-12 Ferrari engine, 5 spd Ferrari Transmission and Ferrari exhaust

It even had Ferrari gauges and was designed under the direction of Bill Mitchell, VP of GM Design at the time

The vehicle above is one of the largest passenger vehicles I've ever seen and it has one of the largest car engines too.

707 cubic inches

A beautiful GMC motor home above and several GMC trucks below of different vintages.

One of the GMC grilles to the left and some beautiful Pontiacs below.

To the left is the 1953 Cadillac **LeMans** created by GM design for the 1953 Autorama as a sporty dream car.

Wow, even GM bikes were there.

Lots of corvettes, concepts and production examples.

The above picture is a collection of our club members and the west Michigan club.

Below is the show field for the Widetrackers Dust off car show on June 11th.

Here are some club members accepting awards at the conclusion of the show.

Below are some “Cool Cats” hanging out at the show. It was a beautiful day and I believe 102 cars showed up. I’m hoping our show gets better attendance!

I can’t help but admire the barn in the background, I’d love to have that in my back yard.

The editor was invited to the Pontiac Transportation volunteer appreciation dinner on June 15th along with anybody else that had volunteered their time there over the last couple years. There were a couple guest speakers and the food was great and we were able to tour the facility afterwards to see the latest progress

Interesting Stuff:

Did You Have One Of These???

..... dual gate...

THE DUAL TRANSMISSION CONTROL BY **HURST** THAT'S BOTH

HIS and **HERS**

FOR HIM, performance-driving the automatic. No more over-riding gears. No more danger of reverse instead of low, or searching for second and drive detents as with the usual automatic selector. Now select the proper gear at the proper time with safety and confidence. Start in low (no possibility of reverse this time) and push forward and to the right on the "stick" for second. No chance, no feeling for the detent with "safety latch", a positive snap—a positive second. Ready for high, again to the right and forward as hard as you please and "bang", high — *not neutral*. Every selection quick and safe no matter the degree of excitement.

HIS ONLY

THIS KEY ON HIS PERSONAL KEY RING PREVENTS USE OF THE COMPETITION GATE BY THE CURIOUS PARKING LOT ATTENDANT, OR THE AUTOMATIC MINDED LITTLE LADY. NO CHANCE OF THEM OVER-REVVING THE ENGINE WAITING FOR THE AUTOMATIC SHIFT.

FOR HER, the usual peace of mind of the automatic transmission plus an extra bit of admiration for "her man" who really wanted a 4-speed standard stick but bought this extra just for her. The Dual Gate was designed for those who desire both the ease and convenience of an automatic plus the performance of a manually shifted transmission. It will add individualism and pride of ownership to that personal car which the family can borrow. A simple flip of the latch to the normal position, without the need of the key, and the manual shifting (His) gate is closed to all but the key holder. Also, we have put a little fun into driving the automatic.

FIRST MODELS FOR THE PONTIAC GRAND PRIX AND OLDSMOBILE STARFIRE. ALL CHRYSLER PRODUCTS TO FOLLOW SHORTLY. SEE YOUR DEALER NOW.

The Definition of Acceleration

One TF dragster's 500-inch Hemi makes more horsepower than the first 8 rows at the Daytona 500.

Under full throttle, a dragster engine consumes 1 1/2 gallons of nitro per second, the same rate of fuel consumption as a fully loaded 747 but with 4 times the energy volume.

A stock hemi will not produce enough power to drive the dragster's supercharger. Even with nearly 3000 CFM of air being rammed in by the supercharger on overdrive, the fuel mixture is compressed into nearly-solid form before ignition.

Cylinders run on the verge of hydraulic lock. Dual magnetos apply 44 amps to each spark plug. This is the output of an arc welder in each cylinder.

At stoichiometric (exact) 1.7:1 air/fuel mixture (for nitro), the flame front of nitro methane measures 7050 degrees F. Nitro methane burns yellow. The spectacular white flame seen above the stacks at night is raw burning hydrogen, dissociated from atmospheric water vapor by the searing exhaust gases.

Spark plug electrodes are totally consumed during a pass. After half way, the engine is dieseling from compression - plus the glow of exhaust valves at 1400 degrees F. The engine can only be shut down by cutting the fuel flow.

If spark momentarily fails early in the run, unburned nitro builds up in those cylinders and then explodes with a force that can blow cylinder heads off the block in pieces or split the block in half.

To exceed 300 mph in 4.5 seconds dragsters must accelerate at an average of over 4G's. But in reaching 200 mph well before 1/2 track, launch acceleration is closer to 8G's.

If all the equipment is paid off, the crew worked for free, and for once **NOTHING BLOWS UP**, each run costs \$1000.00 per second. Dragsters reach over 300 miles per hour before you have completed reading this sentence. Top Fuel Engines turn **ONLY 540 revolutions** from light to light!

The redline is actually quite high at 9500rpm The current TF dragster elapsed time record is 4.477 seconds for the quarter mile (06/02/01 Kenny Bernstein)

Putting all of this in perspective.....

You are driving an average Lingenfelter powered "twin-turbo" Corvette. Over a mile up the road, a Top Fuel dragster is staged and ready to launch down a quarter mile strip as you pass. You have the advantage of a flying start, but you still run the 'Vette hard up through the gears and blast cross the starting line and past the dragster at an honest 200 mph. At this moment, the dragster launches and starts after you. You keep your foot hard down, but you hear an incredibly brutal whine that sears your eardrums and within seconds the dragster catches and passes you. He beats you to the finish line, a quarter mile away from where you passed him. That's acceleration. Think about it, from a standing start, this phenomenal machine has spotted you 200mph and not only caught, but nearly blasted you off the road when he passed you within a mere 1320 feet.

GM design team releases drawings of possible future design concepts

To the right is a Buick crossover

Below is a sporty chevy crossover

Funnies: This editions funnies brought to you by Ray Santos and Ken Galdes

Some things to ponder.....

The inventor of the treadmill, died at the age of 54

The inventor of gymnastics, died at the age of 57

The world body building champion died at the age of 41

The best soccer player in the world, Maradona, died at the age of 60

KFC inventor lived to be 94

The inventor of Nutella lived to be 88

Cigarette maker Winston lived to be 102

Inventor of opium died at 102, in an earthquake

Irish inventor of Hennessy cognac , lived to be 98

How did doctors come to the conclusion that exercise prolongs life?

The rabbit is always jumping but it lives for only 2 years whereas the turtle never exercises and lives to be 400 years?

So have a drink or a cigar and all the ice cream and cake you can eat and enjoy life without worry.

THE DAILY TOON

by Mark Linn

I ASKED MY GRANDDAUGHTER TO FETCH ME A NEWSPAPER, SHE LAUGHED AND SAID "GRANDDAD YOU ARE SO OLD, JUST USE MY PHONE."

SO I SLAMMED HER PHONE AGAINST THE WALL AND KILLED THAT BIG HAIRY SPIDER.

What happens when Old Car Guys get sent to a nursing home ...

**Called my stockbroker
this morning and asked
him what I should be
buying? He said,
"Canned goods and
ammunition."**

WLH

**Men don't have
babies because
God saw the way
they handle a cold
and knew the
species would
never survive.**

FIVE TIPS FOR A WOMAN....

1. It is important that a man helps you around the house and has a job.
2. It is important that a man makes you laugh.
3. It is important to find a man you can count on and doesn't lie to you.
4. It is important that a man loves you and spoils you.
5. It is important that these four men don't know each other.

Motor City POCI
8th Annual Summer Roundup Pre-Show Committee Meeting
Thursday, June 30, 2022

Members of the Show committee met at Baker's Restaurant of Milford at 5:00 P.M.

Committee members present at this meeting: Kenny Galdes, Ray Golota, Brian Dougherty, and Ray Santo.

This meeting was called to finalize details of the Summer Roundup which had been discussed at our last meeting two (2) weeks ago on June 16th. The meeting was promptly called to order by Ken at 5:00.

*** We resumed the previous discussion about the Silent Auction from the last meeting. The committee decided on the following guidelines:**

- 1. The bidding for all items will be in \$3.00 increments**
- 2. There will be a discounted "buy it now" price on all items**
- 3. There will be separate lines for Gift Cards and Items**
- 4. Cash or Checks will be accepted but no charge cards**
- 5. Receipts for all items will be in the form of post-it notes**
- 6. The post-it note will be turned in to receive the Gift Card or Item**
- 7. The Silent Auction will be open to everyone**
- 8. The auction will be inside and accessible through the double door side entrance on the south side of the building.**

*** Show application updates:**

- 1. As of this date we have 39 pre-registered vehicles**
- 2. Of the 421 applications we sent out, 7 came back undeliverable and only 8 people responded and registered**
- 3. Out of our 27 Club members, 11 have not registered yet**

*** Confirming that our "Welcome Package" will contain our Show registration form,**

- * Ray G. informed us that the “Thank You” plaque decals have been updated for this year.
- * We are expecting several Sponsors to have displays and booths set up with a wide variety of items and services. Including an Amsoil distributor, Modern American Car Insurance, parts cleaning products and service, Die Cast Model Cars, Classic Car Sales and much more.
- * We are still in need of more volunteers to help make thing run smoothly so please consider lending a helping hand if even only for a brief time during the Show.
- * Just as an aid to our friends and participants, we are asking that our members wear the light blue show shirts from a previous show so folks can identify you if they need any help.
- * Ray G. presented an updated treasurer’s report. Here are the latest figures as of today, June 30.

Current bank balance:	\$15,293.67
Sponsor cash donations:	12,425.00
Silent auction items value:	6,000.00
Car Show pre-registrations:	39

Please Note: We are planning to get together again at Baker’s on Friday, July 1 , the day before the Show at around 5:00 PM to set up the Silent Auction area and go over any last-minute items anyone has questions or concerns about. If you can make it, please stop by to say hello.

Respectfully submitted,
 Ray Santo
